• www.dosher.org	N hi Sii	As your elected representatives, we feel the need to speak out on a subject of great interest and concern: Two Certificate of Need applications for a free-standing operating room in Brunswick County. Important facts: 1. The State Medical Facilities Plan calls for the addition of 0.37 of an operating room in the county. 2. Two healthcare organizations have applied to build a stand-alone operating room, both in operating room(s) plus procedure room(s). 3. Neither application meets current state statues to identify patients without access to care/ 4. Both applicants mould shift surgical patients away from Southport, thereby affecting the future inderserved patients and to protect a rural hospital nearby—Dosher Memorial. financial viability of Dosher, the only independent critical access hospital in the state. This is about the needs of people across the county, not just the needs of the fine people of half miles away. Also regarding travel, Southport residents would have to travel more than 50 miles round trip to the proposed sites in Leland, while people in Calabash would face a round trip of more than 90 miles. We feel that with the equivalent of three operating rooms and up to 23-hour patient stays, unnecessary for a county of 116,000 people. Dosher, with more than 300 employees, 100 members of the medical staff, and 200 volunteers, erificate of Need Commission to Brunswick County. We are urging the North Carolina Vavant Heatth Brunswick Medical Center and Dosher—to continue serving the needs of patients in varswick County.	17
