Dosher Urgent Care Will Transition to Appointment Based Acute Care/COVID Testing Clinic

SOUTHPORT— Beginning Monday, May 18th, the Dosher Urgent Care Clinic at 4222 Long Beach Road, Southport, will begin to treat minor non COVID related illnesses and injuries once again, after being utilized solely as a COVID-19 screening and testing clinic since March 23rd.

The Dosher Urgent Care will continue to operate as a “call ahead” clinic for the safety of patients and staff. Patients will be scheduled for acute visits in the morning and for COVID-19 screening and testing in the afternoon.

If the Dosher Urgent Care cannot accommodate a desired appointment time due to COVID-19 screenings, then Urgent Care will assign the patient to one of the primary care providers within the Dosher Clinic Network for a same day visit.

Before scheduling an appointment with Dosher Urgent Care, patients are encouraged to call a primary care provider where there is an established relationship first.

Dosher Urgent Care is open Monday through Friday from 8:00 – 4:30. Patients can call 910-454-4732 for an appointment or further inquiry.
