Dosher to Offer Minimally Invasive Neck and Back Surgery

SOUTHPORT—Dosher Memorial Hospital has begun to offer minimally invasive outpatient cervical and lumbar spine surgery. Dr. Kevin Cahill of the Coastal Spine, PC Institute in Supply will be a provider for this new service line.

Dr. Cahill is a board-certified neurosurgeon and founder of the Coastal Spine Institute. He completed his neurosurgery training at Harvard Medical School and then a minimally invasive spine surgery fellowship at the University of Miami.

Dr. Cahill has been an innovator in his field and has dedicated his career to making spine surgery safer and more efficient for his patients. One of Dr. Cahill's goals is to eliminate the need for patients to leave the area to obtain high quality spine care. He is the only neurosurgeon with advance spine surgery fellowship training in the region.

For an appointment with Dr. Cahill or to find out more about minimally invasive spine surgery, patients may call 910-356-6100.
