Dosher Volunteers Elect Officers For 2021-2022

SOUTHPORT—The Doshier Memorial Hospital Volunteers are a diverse group of individuals from Southeastern Brunswick County who provide administrative assistance for the Doshier organization as well as raise funds for hospital programs and equipment through the hospital gift shop and a high-quality resale store in downtown Southport. For safety reasons, hospital administration had requested that volunteers leave their posts at the onset of the pandemic, returning to duty in March/April of 2021 with the availability of vaccines and after completing hospital COVID safety briefings.

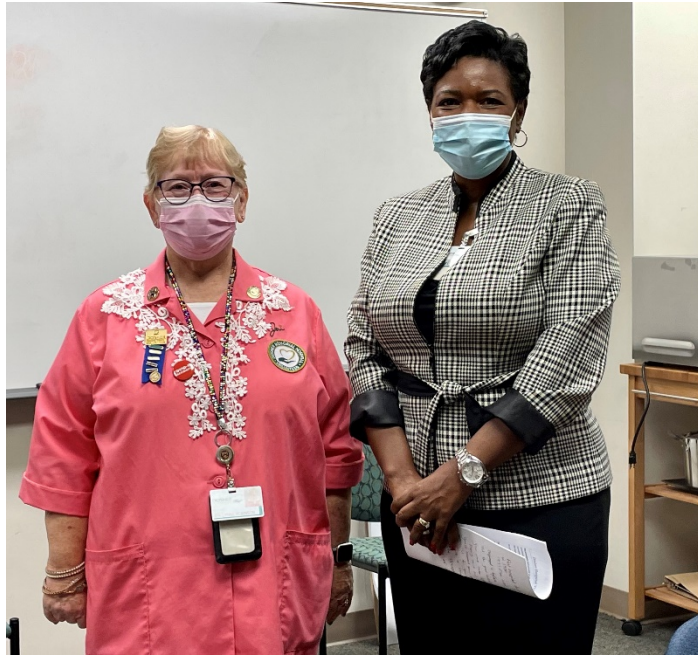

Doshier Volunteers have recently elected officers for the 2021 – 2022 term:

- Jeri Robinson, President
- Ann Hollingsworth, Vice President
- Donna Jenny, Secretary
- Lorena Curry, Treasurer
- Verda Darrell, Chaplain

Lynda Stanley, President of Doshier Hospital, who officiated the swearing in ceremony of the Doshier Volunteer Officers, said, “The tradition of volunteers at Doshier dates back to the opening of the hospital. So long as we have had a hospital, we have had volunteers giving generously of their time, and providing invaluable support for our patients and staff. We missed them in 2020 but will always prioritize their health above all else. We were grateful to welcome them back last spring, as the friendly, hospitable help our patients receive from the people in the pink jackets is part of what Doshier is known for.”
