Doshier opens triennial community health survey

SOUTHPORT—Doshier Memorial Hospital is inviting people who live or work in Brunswick County to participate in its Community Health Needs Assessment for 2018. The survey is available online at Doshier.org/CHNA2018.

“The Board of Trustees, Administration and Medical Staff will use the collective feedback to prioritize health and wellness needs, and implement specific services over the next few years,” Doshier Board Chair Sherri Marshall says. “We look forward to a high participation rate, especially because the survey takes less than five minutes to complete.”

Six hundred nineteen people completed the last Community Health Needs Assessment survey by Doshier in 2015, and the hospital expects to surpass that amount through this year’s survey. Results will be announced later this year.
