Dosher opposes proposed new Operating Rooms

Dosher has formally submitted objection to two competing Certificate of Need applications to build a new surgical center in Brunswick County because:

- Either application would be an unnecessary duplication of resources
- And, would have a significant impact on Dosher Memorial Hospital and patients of southern Brunswick County.

More than 500 physicians, area residents, volunteers and employees agree and submitted letters to the state against the applications.

The state Healthcare Planning & Certificate of Need Section is holding a public hearing on the applications on **Friday, January 20, 11 a.m., in the Odell Williamson Auditorium** at the Virginia Williamson Event Center of Brunswick Community College, 50 College Road, Bolivia. The public can show your support for Dosher's position by attending this hearing. (Additional zoom in map on back.)
