Foundation, students support Doshier Foundation

SOUTHPORT—The Noren Foundation, a private foundation focused on education, has donated \$20,000 to the Doshier Memorial Hospital Foundation. The contribution is for healthcare education programs offered by the hospital and supports a scholarship to Brunswick Community College for students pursuing a healthcare career.

In a separate contribution, Southport Christian School students raised \$426.05 for the Doshier Foundation for heart health programs at the hospital. Students Aidra and Cash Hood recently organized a program, “Changing Hearts,” to inform people about the importance of exercise and heart health habits.
