### **Doshier Foundation Funds over \$20,000 to Hospital**

SOUTHPORT— The Doshier Memorial Hospital Foundation recently allotted \$21,222.41 in funds for three areas at Doshier Memorial Hospital.

1. \$5,000 will be given to Doshier's Employee Assistance Program, which offers financial support to staff members in times of crisis.
2. \$13,970 will go to the purchase of a Global Med Telecart. Since the onset of the COVID-19 pandemic, telehealth visits, which allow patients to connect with their physicians remotely, have become a vital component of patient care.
3. \$2,252 will be used for the purchase of Language Line equipment, which is used in the Doshier Clinic Network and Hospital when sign language or interpretation is needed to properly communicate with a patient.

Lynda Stanley, President of Doshier Memorial Hospital and the Doshier Foundation, says, "Doshier is extremely grateful for the many organizations and individuals who provide us with financial donations. This support enables us to continually improve patient experience and deliver the level of care that every patient deserves."
