Dosher Conducts HAZMAT Exercise with County Emergency Services

SOUTHPORT— On Wednesday, November 20th, Doshier Memorial Hospital teamed up with Brunswick County Emergency Services to conduct a HAZMAT exercise with Sunny Point Military Terminal, in an annual drill which coordinates preparedness with multiple agencies. Carl Mauney, Doshier's Emergency Management Coordinator, oversaw the drill with Edward Conrow, the Emergency Services Director for Brunswick County. Conrow noted the importance of conducting the drills, especially with the Brunswick Nuclear Plant and Sunny Point in close proximity. A new decontamination tent, donated by the Doshier Hospital Volunteers, was utilized in the drill. The tent will be stored on the hospital premises and offers a rapid assembly, should it be needed in an emergency situation.
