Dosher Physical Therapist Earns Geriatric Specialty Certification

Colleen Rollo, Geriatric Clinical Specialist

SOUTHPORT—Dosher Physical Therapist Colleen Rollo recently earned her board certification as a Geriatric Clinical Specialist. This certification demonstrates Colleen's specialized knowledge and advanced clinical proficiency in helping to provide the best care to geriatric patients.

In addition to passing a board exam, Geriatric Clinical Specialists are required to have worked 2,000 hours with geriatric patients, with 500 of those hours in the last 3 years. The geriatric specialty focuses on a whole patient approach as opposed to a medical diagnosis.

Colleen earned her Doctor of Physical Therapy Degree at American International College in 2012 and has been with Doshier since July of 2016.
