Volunteers roll out new shuttle vehicle at Doshier

SOUTHPORT—Patients and visitors at Doshier Memorial Hospital can now get a ride to and from the hospital parking lot across Fodale Avenue in a new electric car, thanks to the Doshier Volunteers.

The four-seat vehicle is equipped with seat belts, heater, headlights and tail lights, windshield wiper, and a flashing safety light atop the 2017 Polaris model GEM e4. It replaces a golf cart which had been in service for five years. Volunteers operate the shuttle service 7 a.m. to 1 p.m. weekdays.

The Doshier Volunteers are an independent group of close to 200 women and men supporting the hospital through a variety of services since 1972. For more information, call the Volunteers at 910-457-3903 or visit Doshier.org/Volunteers.
